

Please reject the National Association of Broadcaster's petition 04-160 and support XM Radio and Sirius Radio in there ability to provide me with the type of radio service that I want.

I frequently travel at night along Interstate Highways. It is very difficult, almost impossible to find a station that is clear and offers the type of programming choices that I deserve.

My choice to subscribe to Sattelite Radio started two years ago, when travelling from 10:30PM to 4:00AM along Interstates I-95 from South Carolina into Florida and then to Tallahassee along I-10. It impossible to find a station that I could stand to listen to. Now that I have XM Radio in my car, I make the choice of what I listen to. Not what sells advertising.

Please, don't limit Sattelie Radio. The give me the choice, not force me to listen to what will make money for the Station.
